

EASTERN ILLINI ELECTRIC COOPERATIVE  
PAXTON, ILLINOIS

RIDER NO. 5  
INTERRUPTIBLE AIR CONDITIONING

Availability

Available upon application to all member/owners utilizing electricity as the primary source of energy for air conditioning subject to established rules and regulations of the Cooperative. The Cooperative will bill the member/owner for all electric use at the account under the applicable rate schedule.

Available upon application to any member/owner served under Rates 1, 5, 6, 8, 19 or 20 with 240 volt central air conditioning systems that are capable of being cycled off and on by installation of a cooperative provided control device. Such systems must be of sufficient size to provide air conditioning to the entire facility where it is located.

Summer Control Credit

A summer control credit shall be applied to the account at the rate of \$15.00 a month for the consumption months of May through September if the consumption for the monthly billing period exceeds 500 kWh per month. Only one control credit shall be given for any single account.

Notice of and Period of Interruption

The Cooperative is not required to give notice prior to interrupting service to the air conditioning system. The period of interruption will be limited to 12 p.m. (noon) to 10 p.m.

Additional Terms

1. The Cooperative shall be the sole and final authority in determining whether this rider is available to a member/owner.
2. The Cooperative reserves the right to limit the number of member/owners on this rider to the level required to meet its target of controllable load.
3. The Cooperative shall have no liability to the member/owner and the member/owner shall assume full responsibility for any loss, damage or claim by reason of any interruption, curtailment or restoration of service.

Effective with bills rendered on and after January 1, 2009.
