

Attend a Geothermal Open House

Saturday, October 17, 2009
9 a.m. to 2 p.m.
390 CR 400 N
SADORUS IL 61872

★ *A FREE LUNCH will be provided.* ★

Learn how you can save 30% off the ENTIRE cost of your system.

Join us at the home of Derek Stierwalt near Sadorus, Ill., to see, first-hand, the most energy efficient way to heat and cool your home. Representatives from Eastern Illini and Bratcher Heating and Air Conditioning will be hand to get you all the details you need to start saving money now.

A geothermal system utilizes the near-constant underground temperatures to heat your home in the winter, and

cool it in the summer. By utilizing the “free” capabilities of the earth, you get about 4 units of energy for every 1 unit you put into the system!

Plus, with available federal tax credits, you can save 30% off the cost of a geothermal system – with no credit limit!! That makes a geothermal system pay for itself even quicker
